

## BOXA COLLECTION

The Boxa stool and bench designed by Brad Nicholls, credits its clean simple lines to the traditional box join which shows its structural detail in all its beauty. Boxa is an honest design respecting form where less is more.

This indoor natural product brings an organic touch to any cafe, reception or breakout area.

When you touch the surface of Boxa you are touching the timber unlike lacquers where you are touching a thin film of plastic.

Boxa table is now available in three different sizes.

## MATERIALS

The timber is a select grade plantation grown Vic ash. Finish is a natural oil that contains no v.o.c that is suitable for kids toys.

Available colours: Natural, white wash or black wash.
