SCALA DESIGNED BY PERNILLE SVANE HANSEN

Features

Scala's high stool and stacking side and armchair are of a timeless, classic nature, elegant, restrained and finely detailed. The slender tubular steel frame with gently curving front legs, forms a compact footprint, while the curved seat and back provide excellent comfort. The curved front leg is mirrored in the equally elegant matching table design. Whether informal conference or dining, Scala will appeal to both leisure and corporate specifiers.

Finishes

The beech veneer seat and back can be clear laquered, stained or coloured. Scala can also be specified with low profile upholstery.

Certifications

Design: Pernille Svane Hansen

Pernille was the first designer from outside the UK that Allermuir worked with. She studied architecture and design for six years in her native Denmark at the Aarhus School of Architecture, followed by work on theatre set design in Denmark, and commercial interior design in London. She has had worked exhibited on a number of occasions at the Scandinavian Furniture Fair, Copenhagen and worked for a leading architectural practice until recently.
