SURF DESIGNED BY PETER CHRISTIAN

Features

Surf is a lively and stunningly simple alternative to the traditional bar stool. The construction of the fluid line of the seat, up into the 'backstop', is a popular feature of this design. The 'spring' to the seat adds comfort and gives a physical life to the design. Surf's adaptability makes it suitable for a wide variety of applications.

Finishes

The cantilevered, beech veneer seat can be clear lacquered for a natural look, stained and lacquered, or block coloured for an intense, vibrant effect. The centre pedestal column and base are available as either epoxy polyester powder coat or bright or satin chrome. The footrest is available as chrome as standard.

Certifications

Design: Peter Christian

Peter Christian studied furniture at the Royal College of Art and went on to form his own design and manufacturing company in the 1980's before becoming Design Director at Aktiva. He continues to design and develop for a number of manufacturers including for Allermuir, his successful 'Wafer' and 'Surf' designs.
