

ZENITH

AURA COLLECTION

### Features

The Aura Illuminated (Cordless) is an award winning fusion of furniture and lighting designed to suit both commercial and domestic environments.

This illuminated modular seat uses NEOZ technology - a portable, dimmable and rechargeable lighting solution to provide a soft ambient glow.

It can adapt to various environments existing effortlessly as a single unit, stacked to form a sculptural arrangement, interconnected like a vertebrae or illuminated from within.

Note : Also available in Cord version.

The Aura Pebbles are an award winning modular seating system designed for both interior and exterior environments available in a range of unique stone effect finishes.

The Aura Mini is the baby version of the award winning modular seat providing designed specifically for kids!
