CASPER STOOL

### Features

Casper is a stylish and contemporary café, dining plastic monoshell chair and stool design, for all manner of catering and hospitality environments in both the corporate and leisure markets, as well as being ideal for modern meeting applications.

The distinctive angular faceted upper backrest blends down into the curvaceous seat in a unique way while the equally distinctive slot in the lower back, relieves the volume of the chair aesthetically. Casper provides a relaxing, supportive, comfortable sit with both flex and support in equal measure.

### Finishes

Plastic shell available in white, red, blue, yellow, coffee or green.

Tubular steel frame in polished chrome.

Option: Upholstered seat

Counter height stool 625mm

### Certifications

### Design: Allermuir Design

AD

allermuir : design

Allermuir's in-house design and development team is one from a mixture of design, engineering and production backgrounds. As well as working successfully in developing the ideas of freelance furniture designers and products for architects and interior designers specific projects, the departments acquired market knowledge has also led to a number of highly successful in-house designs.
