

Features:

Inspired by a grinding stone used for pounding grain that Charles grew up with. "It had a slender, tapering form, blunted and smooth from years of use", Charles recalls.

The scalloped arm is comfortable and embracing, and has been developed as a continuous sweep. This stretched form, achieved using moulded foam, is echoed in the ottoman. Again comfort and use were considered here, as both an object to sit on or lean into

Finishes:

Three lengths available.
Upholstered leather or fabric COM.

Manufacturer:

Designer:

Charles Wilson
